

SQL DATA PARTNERS IS NOW MARATHON CONSULTING

May 1, 2023

As we begin the transition of integrating SQL Data Partners into Marathon Consulting, we know that many current clients will have questions. Below we have provided answers to some of the concerns that may come to mind right off. We are looking forward to the opportunity to work with you as your IT and Data Solutions partner.

- **Will this affect the services provided to our company?**

Absolutely not. Carlos and all of the SQL Data "Partners" will all be a part of the Marathon team. You will be getting the same service you are receiving now from the same team members. You will also have access to other Marathon services and capabilities that are complimentary to what SQL Data Partners is currently delivering for you.

- **When will this change occur?**

The acquisition was final on May 1, 2023. Carlos is currently reaching out to work with clients on transitioning agreements/contracts to Marathon.

- **Who will be our new point of contact?**

Carlos will still be very involved in the delivery of each account, and Marathon will provide an account manager to each client as well.

- **Will there be any change with the current contract?**

Initially Marathon will be using the existing contract/terms to deliver services. We will be working with each client to establish a new MSA with Marathon.

- **Will there be any changes to billing/payment?**

Invoices have been sent out from SQL Data Partners to current clients this week and payment should be made to SQL Data Partners as they have been previously. Invoices for June will be sent out from Marathon and payment should be made to Marathon from that point forward.

Tony Cortinas and Carlos Chacon

We are excited to welcome SQL Data Partners into the Marathon Consulting family. Carlos and his team have been providing top-notch enterprise SQL Server support to their clients for more than a decade. Together, we will be able to provide a more comprehensive and fully-rounded suite of data solutions, adding more value for our clients and ensuring the health and integrity of their critical systems.

Tony Cortinas, President, Marathon Consulting

MARATHON CONSULTING AT A GLANCE

Since 2006, Marathon Consulting has been delivering quality IT and digital marketing solutions to over 500 organizations, ranging from small to medium-sized businesses to global Fortune 500 companies.

At Marathon, our brand has always started with our people and a dedication to recruiting and retaining the best in the industry. This commitment to team translates into the special connection we have with our clients and the partnerships that we have been able to establish along the way; the result being that over 90% of Marathon's revenue comes from either repeat business or referrals.

Marathon Partners: Tony Cortinas, Tom Marsden, and Ben Ricks

A FEW OF OUR CLIENTS
